SKILLS

Languages: Python, Java, Node.js, JavaScript, TypeScript, PHP, HTML5 & CSS.

Cloud Technologies & API Tools: Docker, Grafana, Prometheus, Prisma, Postman, cURL, S3, Git & GitHub, Postman, Docker, RESTful APIs, GraphQL, OAuth, JSON, CI/CD Pipelines, Linux/Unix Environment, IBM Cloud, AWS, Azure.

Frameworks: React.js, Next.js, Vite, Django, Angular, Tailwind CSS, React Native, Bootstrap.

Databases: MongoDB, PostgreSQL, SQLite, MySQL.

PROFESSIONAL SUMMARY

Results-driven DevOps and Full Stack Developer with over four years of hands-on experience designing, deploying, and maintaining scalable software systems. Holds a Bachelor's Degree in Computer Science with strong expertise in CI/CD automation, containerization, cloud platforms, and system integration. Proficient in Python, Java, JavaScript, and modern DevOps tools including Docker and GitHub Actions. Experienced in distributed data systems, cloud infrastructure, monitoring and logging, and secure software deployment. Demonstrated ability to collaborate across multidisciplinary teams, support mission-critical systems, and deliver reliable, high-quality solutions in fast-paced environments.

EXPERIENCE

EJ PIXELS Jan 2020 - Present

Freelance Web Developer

- Deployed applications on cloud platforms (AWS, Vercel) using Docker containers and CI/CD pipelines.
- Managed containerized environments using Docker for deployment, testing, and system packaging.
- Built a full-stack e-commerce site using Next.js, Node.js, and PostgreSQL; integrated Stripe for payment
- Conducted log analysis, error diagnosis, and root-cause issue resolution across Linux-based servers.
- Integrated third-party APIs (e.g., payment gateways, CRM systems) ensuring seamless operations
- Monitored system performance and service uptime using Grafana and Prometheus dashboards for client systems.
- Utilized Docker for containerization, deployment, and scaling of client applications.
- Supported cloud-based deployments on **AWS, Azure, and IBM Cloud**, ensuring system availability and scalability.
- Collaborated with partner platforms to support API/webhook onboarding and system connectivity.
- Applied CSRF and XSS protection mechanisms across both frontend and backend layers (React + Django).
- Executed end-to-end testing for new system features, platform updates, and API integrations.
- Developed responsive and accessible web interfaces using React, Next.js, Tailwind CSS, and Figma for UI/UX design.
- Implemented WebSockets for real-time data synchronization and interactive user features in multiple projects.
- Documented system setups, API integration procedures, workflows, and change logs for client systems.
- Designed and integrated secure authentication systems using NextAuth, JWT, and LDAP.
- Worked independently on various projects, ensuring timely delivery while meeting client specifications and user requirements.
- Developed responsive and accessible web interfaces using React, Next.js, Tailwind CSS, and Figma for UI/UX design.
- Created and consumed RESTful and real-time APIs for dynamic content and state updates.
- Optimized front-end performance of a high-traffic e-commerce website, reducing load times by 30% through code-splitting and lazy loading with Next.js.
- Conducted usability testing and wireframing using Figma, focusing on improving user flow and interface engagement.
- Integrated third-party services and managed state using tools like Redux, React Query, and Zustand.

THE LILONGWE ACADEMY INTERNATIIONAL SCHOOL Jan 2025– Dec 2025

Social Media and Graphics Officer

.

- Manage and maintain the school's website, ensuring content is up to date, visually appealing, and user-friendly.
- Collaborate with the communications and IT teams to ensure smooth functionality and security of the school's online platforms.
- Develop and implement social media strategies that align with the school's communication goals.
- Create engaging content including posts, reels, and stories that showcase student achievements and community milestones.
- Design visually appealing digital graphics, posters, and promotional materials using Photoshop, Canva, and Figma.
- Capture and edit photos and videos for social media and school events.
- Maintain a monthly content calendar and ensure timely posting and consistency across all platforms.
- Monitor analytics and engagement rates to refine content strategies and improve audience reach.
- Collaborate with school leadership and staff to ensure brand consistency and professional representation online.
- Support digital campaigns and newsletters by providing creative visuals and written content.

TEACHERS COUNCIL OF MALAWI Feb 2023 – Dec 2024

IT Officer

- Designed the teacher license card, demonstrating technical and creative expertise.
- Designed the official visual materials such as Staff IDs and 2025 Year Calendar.
- Supervised print production and ensured delivery of high quality printed items.
- Troubleshoot and resolve technical issues, providing timely support to users.
- Balanced multiple projects, maintaining attention to detail, meeting tight deadlines, and ensuring brand consistency across all designs.

EDUCATION- 1

DMI-St John the Baptist University Oct 2021 – May-2024

Bachelors of Science in Computer Science GPA: 4.3

Relevant Coursework: Website Development, Digital Image Processing, Information Security Management, Mobile App Development.

EDUCATION- 2

MUBAS May-2019

Diploma in Telecommunications Engineering.

CERTIFICATES

Cybersecurity(Cybfun) *International Business Machines Corporation(*IBM*)-Aug 2023*

Cloud Computing(CC0101EN) *International Business Machines Corporation(*IBM*)-Sep 2023*

PC Hardware Workshop(PHW*)* *DMI St. John The Baptist University – June 2023*
